Dear IATM Colleagues,

The International Association of Technology and Management (IATM) is proud to announce the 3rd **IATM International Conference**:

IATM 2026 (FALL) International Conference on November 19-21, 2026,

to be held at the **Indiana University of Pennsylvania**, PA, USA. The theme of the conference is:

Navigating the Great Pivot: Business Transformation and technology in the Regenerative Era.

We are operating in an era defined by rapid digital transformation, cybersecurity threats, evolving socio-economic conditions, and the increasing influence of AI on both organizations and society. This conference will serve as a platform for forward-thinking leaders and researchers to collaborate, challenge conventional thinking, and develop innovative, responsible solutions.

This global gathering will bring together a dynamic community of scholars, practitioners, and industry leaders to engage in meaningful dialogue around some of the most critical issues of our time—responsible AI, ethics, sustainability, global impact, and emerging technological trends shaping our future.

This is more than a conference; it's a "Call to Action" for the global academic and professional community. Join us to help shape institutions and individuals for tomorrow!

Email us at iatmconference@gmail.com if you are interested in joining our team.

We look forward to **Welcoming you in Pennsylvania, USA** on November 19–21, 2026.

With appreciation and respect,

Larry C. Pickett

Larry C. Pickett, MBB, MBA, MS

Chair, IATM Advisory Board
